

	Plenary Hall (Amphitheater)	Blue Hall (Presidium)	Strategic Partner Hall (Power Industry Hall)	Green Hall (Cities Hall)	Red Hall (Regions Hall)	Auction House
Time	(500 ppl.)	(roundtable 45 ppl. + 50 add. seats)	(Roundtable 60 ppl. + 50 add. seats)	(100 ppl.)	(200 ppl.)	(180 ppl.)
Focus	PLENARY SESSIONS	Official events	Development of the power industry	Energy-efficiency and sustainability of cities	Energy-efficiency and social development of sparsely-populated territories	Popularization
23 November 2016, Wednesday						
9:00-10:00	Registration					
9.15-11.30	Plenary session - opening		Session	Panel discussion	Panel discussion	
10:00-11:15	Leader-cities joining forces and blazing the trail towards sustainable development and innovation	Meeting among the chief power engineers of heating companies		Reorganization of the ZIL Industrial Zone - a unique Moscow megaproject	Development of regional IT infrastructure as a key factor in improving the energy-efficiency and quality of life of small population centers	Russian-German working group
11:15-12:00	Presentation of Media FEC awards		Interaction of PJSC "Gazprom" with the consumers of natural gas and executive bodies of Russian Federation in the field of strengthening of payment discipline, gasification and energy efficiency program of activities.	BREAK		
	Plenary session	Meeting		Panel discussion	Panel discussion	Panel discussion
12:00-13:15		Official mayors' meeting		International projections of power-industry development: scientifically-sound estimates or pre-programmed scenarios?	Energy-Efficiency 2.0. Reboot	Import-substitution. Support instruments in place. Is business utilizing what it has, or are additional resources required?
13:15-14:00	BREAK			Session	Presentation	Panel discussion
14:00-15:15			Security of in-house gas equipment	Energy-efficient and environmentally-friendly transport systems for megapolises	Autonomous hybrid power-supply systems for low-population and remote settlements	Technologies of the industrial Internet as a driver for development of the fuel-and-energy complex
15:15-15:45			BREAK			
			Session	Session	Panel discussion	All-Russian meeting
15:45-17:00	Summit of Global Energy Prize winners		From innovative technologies to development strategies for low-population and remote settlements	Qualitatively-new lighting – best investment in the quality of life in cities		Energy-efficiency and comfort - potential of urban heating systems
24 November 2016, Thursday						
9:00-10:00	Registration					
	Plenary session-opening	Meeting	Session	Panel discussion	Panel discussion	Panel discussion
10:00-11:15	Energy-efficiency and development of the Russian power industry: challenges and responses	Session of the Permanent Expert Group on Energy-Efficiency at the International Association of Oil Transporters (IAOT)	Energy-efficient technologies in rail transport	Capital energy efficiency	"Next Stage of Renewable Energy Development in Russia"	Meeting among the chief engineers of grid companies. Key objectives: equipment reliability or supply stability?
11:15-12:00	BREAK					
	All-Russian meeting	Session	Panel discussion	Meeting	Panel discussion	
12:00-13:15			Modernization of electric power - path towards improved energy-efficiency	Energy-audit reform: cash savings and business-process integration of energy-resource consumers	Smart power industry of the future - new frontiers of energy-efficiency	Meeting among IT directors at FEC companies "Cooperation in the Creation and Development of a CAPCS Elemental Base in Conditions of Restricted Access to Technologies"
13:15-14:00	BREAK					
	All-Russian meeting	All-Russian meeting	Presentation		Panel discussion	Panel discussion
14:00-15:15	14.00-18.00 All-Russian Meeting "On the Progress of Preparing Power Entities for the Fall-Winter Season 2016-2017"	All-Russian meeting on the popularization of an energy-efficient lifestyle and FEC informational transparency	Energy efficiency, energy conservation and renewable energy. Modern technologies and equipment in the energy development of the CIS member states	Panel discussion Fostering international cooperation for enhanced energy efficiency - results of the partnership programme of the Russian Federation, the Global Environment Facility and the United National Development Programme	Sustainable power supply and development of the Asia-Pacific Region – opportunities for international cooperation	
15:15-16:00				Panel discussion		
16:00-18:00				International climate finance instruments for energy efficiency and low-carbon development in Eastern Europe and Central Asia
